falconic

KEEP AN EYE ON EFFICIENCY

OPTIMIZE
YOUR LOGISTICS

with **falconic**, the control module for your press container

falconic offers everything you need to work more efficiently in our digital world:

→ GPS Tracking and visualization of container location
  (sufficient GPRS and GPS reception must be ensured by the client)
→ **Online configuration of machines and installation sites**
→ **Automatic adoption of site specific parameters when changing the containers**
  (e.g. type of material, amount of press strokes…)
→ Running statistic of all machine related data
  (e.g. amount of emptyings, starting sequences, error messages etc.)
→ Information about machine equipment
→ Connection to already existing scheduling and invoicing programs possible
→ Data transfer from container to Web interface
→ Automatic adaption of the rotating direction of the motor
→ User administration
→ Protocols

Online-adjustment
of containers and location sites:

→ Pre-full and full announcement 50 – 100%
→ Personalized container status
  announcements (Email/SMS) to
  • Technical/Service department
  • Scheduling department
  • Client (machine location)
→ Predictive service
→ Amount of strokes at pressing cycle
→ Position of press ram
→ Adjustment of press related to type
  of material
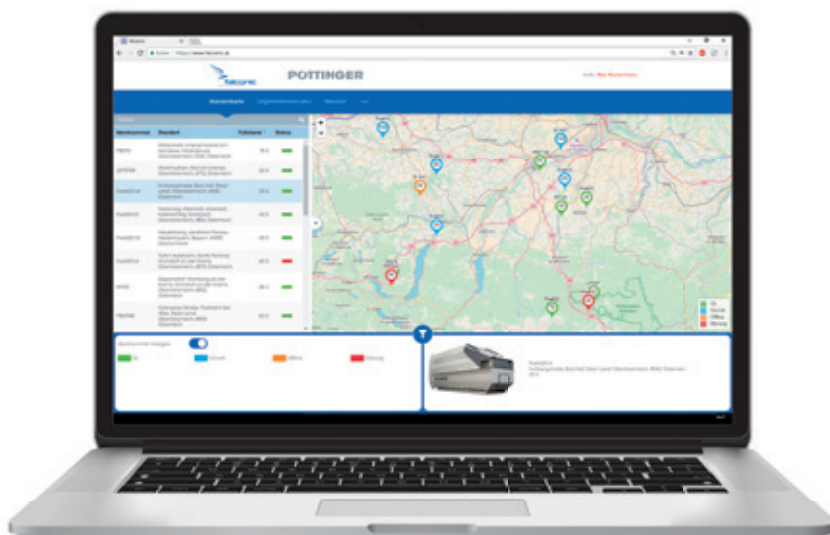

**Give it a try and request your demo access!**
